

Member Benefits

Stash is an entirely new kind of hotel rewards program, one that's dedicated to the spirit of adventurous, meaningful travel. With Stash, members earn and redeem points for free nights at some of the best independent hotels in the U.S., from landmark historic inns to boutique gems to top-rated resorts.

Stash provides several benefits for members:

One-of-a-kind

Stash partner hotels are all independent, distinctive properties, with design and spirit to reflect their locales. They are run by real people passionate about creating enriching guest experiences, without big-chain sameness.

Unchained

With Stash, members don't have to stay with just one brand in order to earn points. Stash partner hotels reflect a wide breadth of distinct brands to satisfy the needs of different travelers and occasions.

Fast

Stash was designed to provide free nights ridiculously fast. Members earn 5 points per dollar spent on eligible room rates, earning a free night in as little as 5 stays...and sometimes faster.

Flexible

Stash makes it easy to find and redeem a room. There are no black-out dates, and points never expire. Rigid reward categories don't exist, which means all rooms are unlocked for redemption.
